Professional Summary

Motivated Computer Science graduate with a strong foundation in web development, data structures, and data analytics. Passionate about solving real-world problems through code and continuously learning new technologies to build impactful solutions

Work Experience

Software Developer Intern

Bluestock Fintech

Jun 2025 - July 2025

- Developed a production-level IPO web application using the **MERN stack**
- Engineered secure **authentication and authorization systems** with **JWT** and role-based access control.
- Created responsive and user-friendly frontend components in React.js, enhancing user interaction.
- Integrated RESTful APIs to dynamically fetch and display real-time IPO and financial data.
- Optimized application performance by debugging UI issues, improving load time, and ensuring cross-browser compatibility.
- Collaborated with backend developers and UI/UX designers to deliver a seamless user experience.

Education

MIT-WPU

2023-2027

CGPA:8.7

BTech in Computer Science and Engineering

SNBP

2021-2023

Class 12 : 76.6%

Podar International School

2011-2021

Class 10: 94.5%

Projects

1)WriteWise – AI Writing Assistant

Tech Stack: React.js, Node.js, AI APIs

- Built an AI-powered web application to assist users with content generation and writing improvement.
- Implemented a clean frontend UI and integrated AI APIs for real-time text suggestions.

2)AI Image Generator

Tech Stack: MERN Stack, AI Image APIs

- Developed a web application that generates images from text prompts using AI models.
- Designed responsive frontend interfaces and handled API integration for dynamic image rendering.

3)Traffic Monitoring & Smart Signal Control System (SIH Project)

Tech Stack: Python, OpenCV, YOLO

- Built a traffic monitoring system using YOLO to detect and count vehicles from live video feeds
- Used real-time vehicle density to support intelligent traffic signal control and reduce congestion

Languages

English

German(A1,A2)

Hindi

Marathi

Achievements

- Successfully cleared all internal screening and evaluation rounds of Smart India Hackathon (**SIH**)and qualified for the National-Level competition in 2025
- stood in top 10 teams in Hackaithon & ideathon in 2024
